Hawk

GEL TUBULAR BATTERY

200 Ah
12V@C10

Introducing Su-Kam Hawk Gel Battery for Inverter/ Home UPS; another winning product with great technical features and efficiency. It offers consistent performance with minimal maintenance and greater reliability. Manufactured at Su-Kam's state-of-the-art production unit with world class standards.

*Conditions apply

State-of-the-art manufacturing facilities

Su-Kam's expertise in manufacturing innovative power back-up systems with its focus on R&D has resulted in wide range of products like inverters, batteries, solar products etc.

Su-Kam has 7 state-of-the-art manufacturing facilities in Baddi, Katha, Nepal and Gurgaon.

Battery Manufacturing facility at Katha , HP.

Battery Manufacturing facility at Baddi , HP.

Advanced Research & Development Unit

Su-Kam is the first in the industry to invest-in and institute an exclusive R&D unit, at par with incremental standards comprising industry experts.

Dedication to superior quality

Su-Kam has remained uncompromising on the quality of its products. With stringent quality parameters and testing, it is at par with international standards.

Certified
ISO 9001:2008
ISO 14001:2004

The Company has implemented Total Quality Management (TQM) practices

Most of our products have received test certifications from reputed laboratories like ERTL (A Government of India organization).

Hawk

GEL TUBULAR BATTERY

Spill-proof & Maintenance-free

Hawk's sealed design eliminates periodic watering making it completely maintenance-free, hence no topping-up at all and completely user-friendly working.

Deep Cycle Battery

As this battery work on non-acid technique, the gel electrolyte shields the plate, thus making it attain a superior rate of discharge performance.

Longer Life and Consistent performance

Hawk's uniform concentration of electrolyte due to immobilized gel provides longer life and consistent performance.

Faster Recharge

Uniformity of electrolyte enables equal reaction throughout the plate leading to faster charge acceptability during recharge.

Environment Friendly

Sealed maintenance-free VRLA Technology makes Su-Kam gel batteries ideal for use in regard to health as it does not emit toxic fumes.

Modular Design with low Foot-print

Modular design along with safety features makes it suitable for sensitive environments such as schools, hospitals, airports and office buildings.
